

Welcome to app:office

AppOffice, Ltd. is a company that was formed with a goal to service and educate businesses and individuals that need to take advantage of computer technology. Our motto is "applications for any office" and we can make your computing projects happen.

We are a small business located in Denver, CO that offers computer services such as web services, computer training, multimedia, and General Office services.

Ready for a Change?

Your business is trying to keep up with the fast pace of technology, and you know that a change is required. Where do you start? Where are your resources? Are you ready? With app:office you can always be ready since we offer full or partial computing support to meet your project's needs.

Products and Services:

Web Site Services	Create and keep your Internet presence alive with up-to-date designs, content changes and interactivity to keep your visitors consistently informed for better customer service.
Computer Training	Learn a computing topic or host a computer class/seminar and bring technology back into your world.
Office Support	Get the office and programming support you need when resources are limited.
Multimedia Development	Produce more effective products that stimulate all senses with graphics, audio, and video.

Our Process

When outsourcing services, you need a company that is experienced in customer service, project planning, and communication. So once a relationship has been formed with us, we will ensure that your project is a priority. Through a formal implementation plan, we keep our customers educated by thoroughly analyzing your needs, documenting your requirements and future changes using reliable communication practices.
